EAST ONEIDA LAKE WATER POLLUTION CONTROL PLANT

Specifications for Truck:

We are currently looking for a new 2015/2016 truck that fits the following criteria.

- Must be a Chevy Silverado 1500 Crew Cab 4WD with a standard six foot box
- Must have a V8 engine and automatic transmission
- Must have front recovery hooks
- Must have a heavy duty battery (minimum 720 CCA, 80 amp-hours)
- Must have power windows, power locks, and air conditioning
- Must have a heavy duty locking differential rear end
- Must have power adjustable heated outside mirrors
- Must have a 40-20-40 split bench front seat
- Must have heavy duty towing package and integrated trailer brake controller
- Must have spray-on truck box liner
- Must have auxiliary external transmission oil cooler
- Must have minimum 18" aluminum wheels with all-season tires and matching spare

We would prefer a silver color to match our fleet.

Thank you in advance.

David DeFazio

EOL Clerk
